Report on CDE Programme -30th May 2022

A CDE program was conducted by the Department of Pediatric and Preventive dentistry, Yenepoya Dental College on Monday, 30th May 2022 at 9.00 AM.

This program was conducted specially for Post graduate students and aimed at focusing on the science and fundamentals of laser and different clinical aspects of modern Laser usage. The title of CDE program was LASER VEDA.

The program began with an invocation by Dr. Kibriya Rehman, Post graduate student, Department of Pediatric and Preventive dentistry. The Head of the Department, Dr. Sharan S. Sargod welcomed the gathering. The CDE program was inaugurated by the lighting of the lamp by the dignitaries; Chief guest, Dr. Reshma Pai; Dean of Srinivas institute of dental sciences, Principal, Dr. Akhter Husain, Vice principal, Dr. Sham S. Bhat, Organizing Secretary, Dr. Sundeep Hegde, HOD Dr. Sharan S. Sargod and the resource person Dr. Chandrashekhar Yavagal.

Dr. Akhter Husain, Principal, Yenepoya Dental College gave the Dean's address. Introduction of the resource person was given by Dr. Ajay Rao. The inaugural function ended with Vote of Thanks given by Dr. Sundeep Hegde.

Dr. Chandrashekhar Yavagal, in his morning session explained about different types of laser and its wide variety of clinical applications like myofunctional pain disorder, TMJ disorder, disinfection in root canal therapy, various surgical procedures, rapid healing of wounds etc. He also exhibited his clinical case reports pertaining to treatments in various aspects of dentistry. Afternoon session was concluded with a live video demonstration on how to operate 'NOVOLASE' and FAQ session.

The lecture was highly appreciated and Post Graduate students had an opportunity to interact with the speaker and enrich their knowledge.

A total of 136 delegates from Yenepoya Dental College, A. B. Shetty Memorial Institute of Dental sciences, MCOODS, Mangalore, KVG Dental College, Sullia, A. J. Institute of Dental sciences, Mangalore, Srinivas Dental college, Mukka, Mahe Dental college, Mahe attended this program. Eco friendly kits were distributed to all the delegates with an intention of promoting ‘ Zero Plastic environment’.

LaserVEDA

Heal • Educate • Inspire

MASTER CLASS BY PROF. CHANDRASHEKAR YAVAGAL

The theme of this program focuses on understanding the science and fundamentals of lasers. It is strongly representative of the clinical aspects of modern laser usage and would ideally suit those who work in the area of health care or research. The program would include evidence based protocols for traditional soft tissue surgical aspects as well as contemporary non-invasive advanced therapies like photobiomodulation (PBM or LLLT) and photodynamic therapy (PDT).

This will also cover different types of lasers and the ones which are best suited for a novice user to begin his/her exclusive laser practice. How to get desired clinical outcomes by using lasers safely and wisely with major emphasis on the laser wavelength. A series of cases shall practically demonstrate the various applications of modern diode technology in the oral cavity, head & neck, as well as non head and neck regions. At the end of this Evidence backed program, the clinician will be able to understand the science behind faster healing, pain control and anti-inflammatory properties of lasers. Lastly, the main part - how lasers will catalyse the paradigm shift from a **Pharmaceutical** driven healthcare towards a **Photoceutical** era of health care not just for routine Oral & Maxillofacial pathologies but for advanced conditions like traumatic brain injury and cognitive brain disorders as well.

PROGRAMME SCHEDULE

8.30AM-9.00AM	Registration and Breakfast
9.00AM-9.30AM	Inauguration
9.30AM – 11:00AM	Session I
11:00AM- 11:15 AM	Tea Break
11.15AM – 1:00PM	Session II
1:00pm – 2:00 p.m	Lunch Break
2:00 p.m – 3:30p.m	Session III - Video Demonstration and FAQ's
